# Introductory

---

**T**HIS Fourteenth issue of the Moose Jaw City Directory, comprising the City proper, is presented to the public with the belief that it will meet the demands of the most exacting and will fulfill the requirements of all its users.

The information in this book is gathered as far as possible by actual canvass, and is compiled in a way to ensure maximum accuracy. While the publishers will in no way be held responsible for any errors that may occur, they will be glad to have any inaccuracies brought to their attention, so that they may be corrected in succeeding editions.

The canvass for the present book was made under favorable conditions, with a crew of efficient canvassers, under the immediate supervision of carefully trained examiners.

The results of the canvass were most satisfactory and the manner in which the information checked in, proved the thoroughness of the work.

Upon examination and use as a work of reference, the directory will be found to contain a thorough and complete store of information regarding all the interests of the city. It is devoted to the advancement of all the city's vital interests and has in each issue kept pace with its progress.

The library of city directories which is maintained by the publishers at The Board of Trade offices, 53 River Street East and Public Library, Crescent Park, Athabasca Street East, for the use of its patrons, has proven a most valuable asset to the City of Moose Jaw.

Through the exchange of directories with the various directory libraries throughout the United States and Canada and the sale of the Moose Jaw Directory to many institutions, hotels and stores in large cities, the directory is circulated throughout the country and serves as a lasting advertisement for our city.

The canvass for the Moose Jaw Directory includes the entire City, so that the name of each person employed should be taken twice; once at the dwelling and again at the place of business. After the canvass has been completed, this information is compiled and it is necessary that there be two slips for each person employed. The information taken at the residence and place of business is compared before the duplicate is laid aside. When a discrepancy is found, a special messenger is dispatched to correct the conflicting information, or if the name has not been taken at both places, to retake it at the home or business place.

The new information is checked with the previous directory and each name in the old directory is accounted for.

It is this careful superintendence and revision which makes the directory estimate of population higher than the census figures.

The directory estimate of population is based on the actual number of names contained in the book, which is multiplied by a common multiple to allow for the married women and small children whose names do not appear.

Based upon the names contained in the pages of this book, it is estimated that the population of Moose Jaw is 22,907. This includes considerable territory beyond the city limits, which is canvassed in order that the names of all people doing business in Moose Jaw may be obtained for the directory.

The Publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and to express their appreciation for the confidence which the business and professional men of Moose Jaw have always shown in their publications.

Respectfully, The Publishers,

HENDERSON DIRECTORIES, LIMITED.

December, 1923.

# City of Moose Jaw

The city of Moose Jaw is situated on the open prairie 400 miles west of Winnipeg, 420 miles east of Calgary and 100 miles north of the International boundary. It is grand divisional point and the provincial centre of the Canadian Pacific Railway.

Moose Jaw is essentially a railway centre.—In addition to being served by the main line of the Canadian Pacific Railway, it is also served by the Canadian National Railways. It is also located at the junction of the Soo Line running direct to St. Paul and Chicago. There are no less than nine lines of railway radiating from the city at the present time, while several additional branches are being proposed as soon as conditions generally will permit of their construction. The C. P. R. has completed a large new station and administration building, enlarged freight sheds, new express and telegraph offices, etc., at an estimated cost exceeding one million dollars.

The city is surrounded by a rich agricultural country which is well settled with prosperous farmers. Crops are noted for their uniform quality and high yield. Mixed farming is coming to the front in the district and the extensive co-operative stockyards recently established under the supervision of the Provincial Government afford the farmers excellent opportunities for the disposal of their cattle, sheep, hogs and horses.

The city is developing as an industrial centre. Plants operating include the famous Robin Hood Flour Mills, large packing plant, creamery with annual sales exceeding one and a half million dollars, sash and door factories, oil refinery, fire brick and tile factory, iron foundry, boot and shoe factory, cheese factory, and numerous smaller undertakings all doing an increasing volume of business.

While the city is primarily a railway centre it is also very prominent, and is developing very quickly as a wholesale distributing centre. This is due to the excellent railway facilities available and to the extended well settled territory tributary to the city. Moose Jaw is the logical distributing point for two smaller cities, thirty towns, one hundred and ten villages and one hundred and thirty hamlets. The lines distributed include meats, groceries, fruits, biscuits, hardware, furniture, boots and shoes, dry goods, confectionery, flour and feed, lumber, farm machinery, building materials oils and greases, automobiles, etc., etc.

Moose Jaw is an important financial centre. Ten banks carry on an ever increasing volume of business, and the confidence of their executives in the future of the city is reflected in the handsome buildings erected.

The city is an important educational centre. There are twelve thoroughly modern public schools, two well equipped collegiate institutes, Roman Catholic Separate School, three residential colleges (2 boys', 1 girls'), two business colleges, musical conservatory, and a large public library containing more than 20,000 volumes, in addition to a wide selection of paper trade and technical journals, magazines, etc.

The importance of the city as a government centre—both federally and provincially—is reflected in the fine Post Office Building, the Dominion Armouries, the Court House, the Land Titles Office, the Provincial Government Telephone Exchange, etc.

Moose Jaw has 22 churches, 9 hotels, 6 hospitals and homes, Y. M. C. A., Y. W. C. A., 200 acres of public parks, 75 miles of concrete and plank sidewalks, paved business streets, electric street railway, boulevarded residential streets, ornamental street lighting, modern department stores, wide business streets, well equipped and administered hospitals, etc. The city owns and operates its own light and power plant, waterworks system, markets, incinerator, etc.

Moose Jaw offers special opportunities for flour mills, creameries, and all industries drawing their essential raw materials from agricultural activities. Openings for all kinds of wholesale houses especially those handling farming machinery, harness and saddlery goods, automobiles, etc. Excellent opening for modern theatre and large hotel. Enquiries should be addressed to The Board of Trade, Moose Jaw.

## MOOSE JAW COLLEGE

This is a Residential College for young men and boys of all ages and opened for the admission of students on September 10th, 1913. The institution has been organized by the Synod of Saskatchewan of the Presbyterian Church, but is non-sectarian. Students are admitted at any time during the term, and their fees are proportionate for the time spent. The new buildings are situated on the top of College Hill overlooking the city on a site of forty-five acres. It is intended to enlarge the present buildings and then erect the Ladies' College as soon as possible. The college grounds are bounded by 7th Avenue Southeast, Coteau Street, 9th Avenue Southeast and the Canadian Pacific Railway, and are on the east side of the Moose River adjoining River Park.

## COLLEGE OF AGRICULTURE

### General Information

The College of Agriculture is an integral part of the University and stands in the same relation to the University as do the Colleges of Arts and Science, Law and Engineering. It has a number of buildings planned and equipped for carrying on its particular work and a staff of its own for the purpose of giving instruction in technical subjects and elementary work in English, Mathematics and the Sciences. Its laboratories and equipment are under certain limitations and restrictions, available to students in the other colleges of the University.

Students in Agriculture enjoy all the advantages—laboratory, library, social, dormitory life, public speaking and debate, athletics—that are incidental to a University. The atmosphere of the University Stimulates students to study and research and the staff and equipment induce them to participate in investigation work that will lead to a broader knowledge of the Science of Agriculture. Students who take one or more years' work at the College should be able to conduct more profitably their farming enterprises and be better able to adapt themselves to new and changing conditions than if they had not had such advantages.

## EMMANUEL COLLEGE

### In Affiliation with the University of Saskatchewan

The College is governed by two bodies, a Statutory Council, composed of ex-officio and elected members. Its Appointment is regulated by canon and the elected members retire by rotation. Also by a Board of Governors, appointed by the Colonial and Continental Church

Society of London, England. The Council grants standings in Theology, and the Board controls all matters affecting the welfare of the College, and the Proceedings of the College are reported annually to the synod of the Diocese of Saskatchewan. The Educational Committee is made up of the Faculty, together with the Bishop, and three clerical and three lay members of the Board of Governors.

The College provides (1) an Associate course in Theology, (2) a pass course leading to the Testamur, (3) a course leading to the Licentiate in Theology, and (4) a course leading to the Degree of Bachelor of Divinity.
